ONLINE EXAM PREP SERIES

LEED Green Associate

Four individual sessions will be held on **December 7, 14, 21, 28, 2011**. Each session is 2 hours in length.

1-3pm EST

December 7: Introduction to Green Building; LEED and the LEED process; Sustainable Sites

December 14: Water Efficiency; Energy & Atmosphere

December 21: Materials & Resources; Indoor Environmental Quality

December 28: Innovation in Design / Regional Priority; LEED Synergies; LEED Green Associate Exam Review

This class series will be delivered live via VirtualClassroom e-Learning. You will receive the same content as you would in the classroom, with a live instructor, in real time, via the internet. A high speed internet connection and speakers or a headset are required.

Cost of the course is \$250

The fee also includes the following:

*Access to 7x100 practice exams for 90 days

*MP3's of Green Associate main topics

*Our Study Guide in a PDF format

*Access to LEED experts for follow up questions via online forum

*Recorded class sessions for 60 days after final course

*Certificate of Completion (qualifies you to take the GBCI exam)

WHAT IS THE LEED GREEN ASSOCIATE?

A new offering of the U.S. Green Building Council's LEED 2009 v3 updates is the GreenAssociate (GA) credential. The credential will make individuals substantially more marketable to clients, as it will confirm your knowledge about the green building industry and commitment to sustainability. To pass the GBCI (Green Building Certification Institute) exam, that awards professional accreditation, requires a level of fundamental knowledge relating to LEED core concepts and strategies. The Green Associate is now designated a Tier 1 accreditation and must be completed prior to becoming a LEED Accredited Professional (LEED AP+). At present, the 100 question, multiple-choice, computer-based exam is expected to take up to two hours.

ABOUT THE LEED GREEN ASSOCIATE ONLINE CLASS SERIES

The online course covers a variety of sustainability topics, green building best practices, and LEED fundamentals. The course topics are tailored to assist industry professionals in understanding the key concepts of LEED and the essentials to pass the Green Associate exam. Enrolled participants receive comprehensive training as it relates to the LEED Rating Systems, green building design concepts, and project strategies. Instructors also provide an overview on recommended study methods, exam-taking skills, and practice questions for the LEED Green Associate professional credential exam.

WHO SHOULD ATTEND AND WHY?

The course targets a broad range of audiences so that anyone can understand the content, and go on to pass the GA exam. Property Managers, Building Engineers, Contractors, Vendors, Asset Managers, Contractors, Developers, Architects, Designers, Building Owners, Engineers, Energy Industry Professionals, Manufacturers, Suppliers, Legal Counsel, and Planners are all encouraged to attend.

ABOUT THE INSTRUCTOR

The mission at Sustainable Investment Group (SIG) is to assist both individuals and organizations in their career & project goals related to the green building industry. All of SIG's instructors are LEED AP's and have worked on LEED projects from inception to completion. They understand what it takes to prepare for and pass the LEED exams. SIG has prepared over 5,000 students across the U.S. for the LEED professional credential exams. The team also provides expertise and environmentally focused solutions to design, construction, real estate, and building operations professionals that are seeking Energy Star and LEED certifications through consulting, education, and training.

Charlie Cichetti, LEED AP BD+C, ID+C, O+M, Homes [Principal at SIG]:

Mr. Cichetti oversees the sustainable consulting, technical, & LEED certification services for multiple projects. He also has experience working with multiple rating systems and was one of the first professionals to hold multiple LEED specialty credentials. Charlie is active with BOMA-Atlanta and a master trainer on LEED and related sustainability topics.
